

To Whom It May Concern:

I am writing with great concern over the discussions the corrupt US government is having on vaccine mandates to fly. This unconstitutional, unethical suggestion is uncalled for. Just look at the many cruise ships that had “fully vaccinated” passengers that recently had to return due to outbreaks. Have you ever wondered what exactly is in these so-called vaccines? We know they do not prevent or protect. The vaccinated are still getting sick sometimes more so than unvaccinated. In that regard these mandates make no sense. It is discriminatory to have different rules for different people especially when both groups are getting sick and can both spread. The rules are strictly political – to sell more shots and instill ultimate control. Mandates will not fix covid. Common sense will.

Political games are being played with the American people, and it needs to stop peacefully, and businesses can help. Let’s stop this divisive destruction of society. Stand with us and not against us! Look at the role these forced rules have had in ruining our great nation! Never have I seen such division created and such hatred stirred for government entities and businesses alike who just go along with it. Surely your company will not want to be part of it. You can be a hero instead of a zero. No other human, government institution, or business has a right or obligation to institute forcing passengers to get a permanent unknown injection of drugs into their body for any reason and especially not to freely travel. Take a step back into history and review the Nuremburg Code. This is round two of what you’d be a part of. If fines are implemented for non-compliance, your company has the means to sue to do the right thing for your customers. If you choose to be on the right side of history, you will gain many loyal customers, but if you choose the wrong side, you will forever lose them.

In this day and age, air travel is very important. It’s important for many business workers, vacationers, family emergencies, relocation, and time saving. The elderly already struggle all that goes into booking a flight and traveling. Showing your papers like Nazis isn’t helping and it violates privacy. It is obscene for our government to even consider being so far-reaching as to even suggest as a possibility to limit air travel to only those it deems “fully vaccinated,” which can be defined differently whenever the CDC wishes to change it. There really isn’t even a vile enough term to describe what is going on in this country and to think that American businesses are humbly going along with it is just as bad.

Airlines have the power and ability to either kill their business or enhance it. As the saying goes, “Go Woke, Go Broke.” Your airline will lose millions of passengers if you mandate. If you think for one second that millions of these strong Americans are just going to cave to a ridiculous, ineffective mandate to fly, you are gravely mistaken. Americans will cancel their flights, drive, have a staycation, and will boycott your airline for another. You will essentially encourage new start-up airlines that have a backbone and a conscious to be created to fly the millions that you will have turned away. These mandates are not voted on by Congress by the way, but instead dictated by an unstable, incompetent, evil-inspired resident in the White House along with other corrupted government agencies.

I ask you as a citizen who wishes to have bodily autonomy and live in a free nation where we can be civil, respectful, private, and ethical towards one another to not go along with any future vaccination mandates.
